		How well the hearing aid will sound in your ear. The better the hearing aid the richer the sound quality.	How Dynamic is your social life? Do you visit restaraunts & go mto shows? Better quslity hearing aids will deal with the demands easier.	Are you all action or perhaps you are outdoors a lot? Better quality hearing aids will deal with challenges such as wind and sudden loud noises more efficiently.	Are you in noise often? Are you struggling to hear in noise? Every hearing aid manu-facuturer treats noise differently but the main aim is to reduce the noise and hear the speech. Better hearing aids will cope with this & give better under-standing of speech in noise.	Most modern hearing aids now come in either battery powered or rechargeable. It's an individual choice.	All our hearing aids are branded products from the worlds best manufacturers. The good news for you is they are guranteed should you have any problems.	Some of our premium prodcuts offer premium Telelvision solutions as part of the package. This includes a home visit to fit the products and ensure you have a premium TV experience.	Impacted ear wax can cause pro-blems to your hearing and your hearing aids. Lanarkshire Hearing Centre will check both your ears and your hearing aids every 6 months for wax. Even a small amount of wax can affect the quality of your hearing.
